TECHNICAL SKILLS

Python with Flask, SQL, JavaScript, React

TECHNICAL PROJECTS

Cafe Critic - [Github](#) | [Website](#)
Fully deployed full-stack web application enabling users to leave reviews for cafes and comment on existing reviews within the cafe.
- Developed using **React, JavaScript, Python, and SQLAlchemy**. Implemented a CRUD system for multiple models and integrated Google Auth for user authentication.

Plantsy: Dead or Alive - [Github](#)
CLI game that mimics plant growing simulation
- Utilized **Python** and **SQL** with the help of **CLI** to generate a program that random conditions that user must input correctly

Slice Sleuth - [Github](#)
Webpage game that keeps track of the user's score and displays it on scorepage. Users are able to keep track of their score via their username and are able to play two unique rounds.
- Code with **JavaScript** and worked with **React** to display everything front-end. Database was created by the contributors and no back-end features were used.

EXPERIENCE

Blizzard Entertainment   June 2021 – January 2024
Competition Operations - Coordinator – Overwatch   Irvine, CA (Remote)
- Established strong relationships with 19 international teams and players, acting as a representative for the company and cultivating trust.
- Recorded API data for 300+ online and offline tournament matches with the prize pool of 4 million dollars.
- Managed and executed multiple projects for competition necessities, including a crisis management plan, game operations run of the show, and more.
- Communicated pertinent league updates to players, teams, and internal partners, ensuring they were well-informed about any adjustments, schedules, or other related news.
- Act as the primary operations lead during both live and online events which entailed taking charge of discussions between numerous teams, including broadcast, operations, and participating parties, to ensure seamless execution and optimal outcomes.

MEK Review   January 2019 – June 2021
Administrative Coordinator   Palisades Park, NJ
- Assisted the Exam Prep leaders with documentation and data collection of 100+ students.
- Lead weekly meetings as an administrative lead for the Exam Prep team during company wide meetings.
- Collected submissions from 100+ students to provide accurate data analysis of their achievements within the program.
